## STRENGTHS

### Technical Skills

Possess strong foundation in Java, HTML, and Python programming languages

## PASSIONS

### Passion for Software Engineering

Software engineering isn't just my career it's my passion. From the thrill of solving complex problems to the satisfaction of seeing lines of code come to life, I am deeply enthusiastic about every aspect of software development.

### Continuous Learning

I am always eager to stay updated with the latest technologies and methodologies. Whether it's diving into a new programming language or mastering a cutting-edge framework, I see every learning opportunity as a chance to grow and improve.

### Community Involvement:

Outside of work, I actively participate in coding communities, attend tech meetups, and contribute to open-source projects. Engaging with the broader software engineering community not only keeps me inspired but also allows me to give back to a field that has given me so much.
